

~~Sunrise Education~~ Thanks letter

American Foundation:

Thank you very much for supporting me. Thank you for providing me money.

I live in countryside, both my parents are farmers. So my family aren't wealth. Another reason is that my father isn't very health. Since in 1999, my father had been getting a serious illness. Then he stayed in hospital for more than one months and used much money. But now, he also doesn't recover. In order to let me study, my parents work hard. My parents almost give me all income to support me.

In order to repay your goodwill. I must study hard. When I graduate from school. I must work hard and effort to help others who want to help. Thank you again. I will remember your kindness for ever.

Sincerely yours,

Liu Bangmei
